Web Testing: Cypress , Selenium, BDD(Cucumber)

Mobile Testing: Apium

Project Management Tool: Jira, Excel, Trello, Azure Board

Cloud/CICD: AWS, Docker, Jenkins

Miscellaneous: Algorithms, Server Administration, SQL, NoSql

Languages: English (Fluent), French(Limited working proficiency)

EXPERIENCE

Powerfull: (Remote, Part Time) — *QA Engineer* [*powerfull.tech*]   **FEB. 2022 - PRESENT**

- I developed and maintained manual and automated test plans and detailed test cases that are reliable, repeatable and maintainable.
- Identifying, documenting, and tracking errors and inconsistencies in software functionality and usability.
- Performed Mobile test with the use of apium while capturing all edge cases.
- Extensively worked on Cypress tools to scale and distribute scripts across many environments.
- Delivered thorough QA testing reports that determined product quality and release readiness.
- Assisted lead QA tester with creation of master test plan. Wrote 40% of the final master plan.
- Assisted end users with problem resolution and general support .
- Identified technical issues, performance with a variety of diagnostic tools.

NFTmarketAfrica: (Remote, Contract)—*QA Engineer [nftmarket.africa]* **SEPT. 2021 - JAN. 2022**

- Reviewed ~30 user interfaces for functionality and adherence to design guidelines.
- Updated **Triage** flow sheet.
- Design and implemented with the use of web automated testing tools and programs addressing areas like regression testing, error/bug retests and usability.
- Performed API testing with the use of Postman.
- Worked with development team and project manager to ensure compliance with identified requirements and also resolving and troubleshooting issues encountered within SLC.

Adekssoft Limited—*QA Engineer Intern* [*adekssoft.com.ng/*]   **DEC. 2020 - JUL.2021**

- Conducted continual service improvement for released products, test new requirements of the product and also conduct regression testing on Web/Mobile App and Admin panels database.
- Reported complaints from End User to the development team when issues are faced.
- Collaborated with Development to enable remediation of failed test cases and identified software bugs.
- Carried out manual end-to-end testing of software products web applications and Admin Portal before Release.

COMMUNITY SERVICES AND CERTIFICATION

Selenium WebDriver with Java — *UDEMY*   **APR. 2022**

Basics to Advanced + Frameworks

Certificate of Volunteer — *UNILAG*   **JUL. 2020**

Developer Student Club

SQL Certified: — *SOLOLEARN*   **AUG. 2020**

SQL Fundamental to Advanced.

EDUCATION

University of Lagos – BSc Computer Science   **SEPT. 2017 - AUG. 2023**
